Senator Lodge said this was a ques-tion of general parliamentary law. The report of the contumacy of a witness was a question of highest privilege. The only thing before the Senate was for the Chair to decide whether the matter was

Chair to decide whether the matter was a privileged report.
Vice-President Stevenson ruled that it was a privileged report.
Hill appealed from the decision of the Chair, and asked to be heard. He made a vigorous speech against the decision. During the further discussion. Senator Hill said the Committee would have no prover to compel a Senator to say whether he had speculated in Surar steck or not. A Senator might speculate in any kind of stock and he violated no law. It was a matter of propriety.

lated no law. It was a matter of pro-priety.
Senator Hill went on to say that he did not approve of Senator's specular-ing in sugar stocks. He had no objec-tion to this Committee finding it out, Let it go to the Senators themselves, and not persecute these newspaper men. The men implicated were avail-able. It was not right to press these newspaper men to divulge their confi-dential sources of information, but to go to the men uranist whom the charges were made. He would have preferred to have the newspaper men disclose the source of their information.

In reply to Senator Gray, who cited the case of a Coroner's hirr, Mr. Hill said he would summon eye-witnesses. Mr. Gray—That is what we are trying

horn to get at it.

Ir. Allen asked, "How would you get this information implicating Sen-res"

ators?"
"Swear them all in," answered Mr.
Hill, amid a roar of laughter.
The appeal was finally tabled.
Senator Dolph introduced a resolution
to bring Correspondent Edwards to the
bar of the Senate, and followed it up
with a speech.
The Vice-President refused to allow

The Vice President refused to allow any resolutions regarding the newspaner correspondents to be considered regarding the report of the cummittee, and held that the presentation of the regarding the special content of the cummittee, and held that the presentation of the regarding the great that the statute prescribed the duty of the Chair, and upon demand of the regular order stated that the Tariff hill was before the Senate! This means that the report will be certified to the District-Attorney for proceedings against Edwards, and Sniver.

Senator Gray has prepared and submitted to the Vice-President a warrant directing the District-Attorney of the District Olumbia to proceed against the Witnesses Edwards and Sniver, indeed the act of 1867. This warrant certifies the facts set forth in the report, and is gipned by the Vice-President.

NEW TARIFF BEFORE JULY.

Unless Present Calculations at Washington Are Wrong.

Ten Days Expected to Bring a House and Senate Agreement.

(By Associated Press.)
WASHINGTON, May 29.—The Tariff eaders of the House do not expect to have another long tariff fight in that body when the bill comes back from the Senate. On the contrary, the belief is that ten days will be ample to settle all differences between the House and Senate. The calculation is that the Senate will get through with the bill by June 15 to 18, so that the ten days allowed for reconciling differences would permit the bill to go to the President for his signa-

sugar.

The programme of action in the House has been pretty fully outlined, although in formal action has been taken by the Ways and Means Committee. As soon as the bill comes back to the House Chairman Wilson will move a disagree ment to the Senate amendments and a reference to a conference committee. This disagreement is a formality, and is not indicative of any line of policy by Mr. Wilson or his associates. In selecting the conference to chairmen of committees and sub-committees of Ways and Means are those on customs, on internal revenue and on income tax. The Sub-Committee on Customs has Mr. Wilson as Chairman and Mr. Breckinridge (Ark.) next. Mr. Wilson will certainly be chosen, and in view of the importance of the customs of information was brought before the creating the refusal of the correspondents to refuse to the information was brought before the creating the refusal of the correspondent to the state of the committee on the correspondent to the state of the correspondent to the state of the correspondent to the state of the correspondent to refuse to Edwards and Committee the sources of the state of the correspondent to the sub-committee on the correspondent to the sub-committee on the correspondent to the state of the Senate of the Committee report and results to answer, the report says and the sub-committee on the correspondent to the state of the Senate of the sub-committee on internal revenue.

The New Schedule Will Go Into Effect June 1.

The sales-agents of the anthracite coal producers held a monthly meeting to-day at 143 Liberty street. The rep-

resentation was a full one. It was decided by the Eastern repre-sentatives to advance the prices of egg and broken sizes of coal 15 cents, to \$3.65 per ton, and the prices of stove and chestnut sizes 25 cents, to \$4 per

ton, June 1 next. April 1 prices were reduced, in conformity to custom, so as to stimulate a stocking movement. At that time it was decided to make three advances of 25 cents per ton during the Summer and Fall of 1894 on each grade. To-day the first of these advances was authorized. In June, last year, prices were advanced 10 cents on egg and 25 cents per

ton on stove and chestnut, making the prices \$3.90 and \$4.46 respectively.

The Western sales agents to-day advanced the prices on all sizes 25 cents per ton, also to take effect June 1. This Chicago \$5.50 per ton, Last Winter's prices at these points were \$5.10 and \$5.75 respectively.

It was decided to restrict the output for June to 60 per cent, of the maximum capacity of 4,500,000 tons, or about 2,800,-000 tons. The output in June, 1893, was 4,115,000 tons, and in June, 1892, 3,821,707

4.15.000 tons, and in June, 1556, 5,000,100 tons.

The fact was developed at the meeting that the current production is all going into consumptive channels. The output during May was restricted to 50 per cent of the capacity during the first half and 70 per cent, of the capacity during the last half of the month.

While the coal barons are increasing their prices, those of "The World" remain the same as usual.

Mr. Hill said the question was now whether the pending bill could be set aside, and his involved the question. Was this a privileged report? Mr. Hill said the matter of speculation in Sugar stock would involve only a matter of propriet; and not of privilege.

During Mr. Hill's remarks Mr. Harris rose to a question of order, and said the Chair must hold the report a question of the Senator making a speech.

The matter of contribution to the campaign, Mr. Hill said, did not involve a question of privilege. The only question of privilege. The only question of privilege. The only question of privilege matter.

oggan Brothers' Derby Winne Passes Away.

LOUISVILLE, Ky., May 29 - Bu-chanan, Scoggan Brothers great stalion, and sire of many good winners died here to-day.

Buchanan was a chestnut horse, thirteen years of age, by Buckden, dam Miss Grigsby. During his racing career he was owned by W. Cottrill.

As a three-year-old he started five times and won three. His best races were in the Kentucky Derby and Clark Stakes at Latonia in 1884, when, with Isaac Murphy up, he easily disposed of such good ones as Loftin, Audrian and Bob Miles. He was retired from the turf at the end of his five-year-old career.

The crew went out this afternoon and the Freshmen followed. Each crew lined up for a short race of a mile or more. They started well, and at the end of the first race all were surprised to see the Freshmen with a good lead on the 'Varsity crew. This was repeated several times with the same result. The last race was rowed for about three-quarters of a mile, and each crew did its best to win. At the end the Freshmen had a good lap on the 'Varsity boat. Capt. Johnson then kept his men on the go for some time, and his efforts were to speed them, but their work was not satisfactory.
